

This is in reference to the radio program KLove signal that is on FM translators. I do not want it replaced with the LPFM station which would not allow KLove to be broadcast. KLove is so important in our community. It spreads the love and peace of God in a contemporary way to thousands of listeners who would never hear or know of the love of God. I cannot imagine not having KLove to get through the day. My husband and teen daughter and her friends all listen to KLove. I drive over 200 miles per day. KLove keeps me awake and going no matter what the circumstance. You must preserve this service to our area so KLove will not be forced off the air. Thank you.
